HealthPH

DOST-PCHRD & National University

The collage includes:

- A top-left screenshot showing a map of the Philippines with various locations marked by colored circles (yellow, blue, green, red) representing different disease categories.
- A top-right screenshot of the "Suspected Conditions" section with four cards: TOTAL SUSPECTED (218), PTB (117), PNEUMONIA (132), COVID (163), and ARI (181).
- A middle-left screenshot of a map showing a specific location with a red marker and a yellow line labeled "Travel to Campus".
- A central screenshot of the HealthPH homepage with the title "HealthPH: Intelligent Disease Surveillance using Social Media" and a subtitle "The Philippines' Pulse on Health".
- A middle-right screenshot of the "Articles" section featuring a photo of a group of people and a news item about a partnership between HealthPH and Roxas Municipality.
- A bottom-left screenshot of a modal dialog asking if the user wants to upload a dataset, with a preview table showing columns like user_id, gender, and race.
- A bottom-right screenshot of the "Navigation" sidebar with links to Analytics, Trends Map, User Management, and other modules.

An intelligent disease surveillance system that analyzes social media data to detect trends in respiratory infectious diseases, providing real-time surveillance for public health authorities.

A web application that lets clients and brokers post requirements for the properties they are looking for. It also manages and advertises properties.

DRCNAI Information Management System

Capstone Project

The image displays a collage of screenshots from the DRIMS (Del Rosario Information Management System) application, illustrating its various features and interfaces.

- Organization Management:** A grid view showing member profiles with names like Bernardo Maximus, Silvestre Ramirez, Lourdes Jose Basir Espacio, Jacqy Letitia Hall, Alessandra Salonga, Marlon Boracata, Luisa-Rory Molabanan, and Maxwell Pachio-Ancol. Each profile includes a photo, a green checkmark icon, and three small square icons.
- Login Screen:** A "Welcome Back!" page with fields for Email, Password, and a Remember Me checkbox. It also includes links for "Forgot Password?", "Back to Website", and a "Logout" button.
- Compound Overview:** A large image of a lush green compound with the text "DEL ROSARIO COMPOUND NEIGHBORHOOD ASSOCIATION INC." overlaid. Below the image is a brief description of the association's mission.
- Mobile Application:** Two smartphone screens showing the DRIMS mobile app. One screen displays a "View Member" profile for "Lourdes Jose Basir Espacio" with details like Name, Age, Gender, and Address. The other screen shows a map with location markers.
- Report Generation:** A screenshot of a report interface titled "Report" with sections for "Summary" and "Report". It includes a chart titled "Residents Age Chart" and a "Report Details" section.

A web application, information management system, and a Flutter mobile application developed for a homeowner's association in Valenzuela City, Philippines.
